

November 3, 2012

The following roads are still closed and had the most damage: Ramsey Road (Route 661), Kerr's Corner Road, State Park Road, Greendell Road, Silver Lake Road and Mill Street. The US Army and the County have arrived in our township to assist in the cleanup efforts this afternoon and will continue to do so tomorrow.

Due to the amount of damage at the substations, JCP&L has determined between now and Wednesday most residents will have power service restored. There will also be some remote sections of the town that will take longer.

Water has been delivered to the town hall this afternoon and will be available during Sunday between 10am -2 pm. If you need it sooner than that, please call Nick Pachnos @ 908-256-6355.

2000 boxed lunches will be available from Trinity United Methodist Church (Main Street) in Hackettstown at 6PM tonight.

I know many of our residents are unaware we are on [Facebook](#). We are trying to get as much information out to as many residents as possible using various methods of communication, Facebook, this E-News and the township website. We are also aware of the challenges our telecommunication providers are having with DSL, telephone and cellular service at this time. So please help us to help you...spread the word! Thank you in advance.

Nick Pachnos
Emergency Management Coordinator
