

November 6, 2012

9:30pm - Due to some difficulties at the Blairstown substation, restoration of power to local residents could not be performed here today. There are now eight JCP&L crews that have arrived in our area and work will commence first thing Wednesday morning. Please continue to update power restoration on this page to help keep us informed. If you have any questions call Nick Pachnos @ (908) 256-6355.

JCP&L reports that as of 3:00 p.m. today, there were 5 different crews heading towards Frelinghuysen to begin working on the downed power lines. They will work throughout the evening. Questions about the status of the power restoration, or any other concerns, may be directed to Nick Pachnos at 908-256-6355.
